Lime Brook Jan. 23<sup>rd</sup> 1874

G. Messrs Primrose Bros

Gentlemen

The reason I

referred to the ore at Kennedy's was

The last time Dr. Dawson was at Kennedy's I was with him he failed for to make out with any degree of certainty the strike of the rocks, or are not being sufficiently uncovered Since then

I was there many times and found indications <sup>of it</sup> Northward ~~with~~ & or its regards the position it occupies I suppose it is included in No 108 or very close to the ~~line~~ <sup>line</sup> Look on the plan I marked on it where I think it is.

D. Fraser

If 108 was surmised I do not know the  
line - I know the mining area was cen-  
tered on Simon M<sup>r</sup>: Donald's Kennedy  
is only 400 paces from M<sup>r</sup>: Donald
