

No 48 - areas as amended

No 49 - take left
right of road - take
of lake - along
In S W Corner
of Right,

No 45 north fork

No 402 no dye -

No 101 - as before

No 100 limits as
outlined on
this

No 47 New area
has intended
to join No 100

No 107 no email

No 104 I think the
route is clear
of Milken's game
but please see

No 108 - can advise
in time.

From the date of the
Mendocino Report
Explorations number
made and the bed
of Hematite was
area 108. The
hematite number
as has been working
on No 105, and
probably by the
to make in the
who is more
fully assessing its
extent and locate.
The explorations
been very in the
depths of the bed
as probably
determined
the competency

McGILL UNIVERSITY
ARCHIVES
REF. NO. 707417
200

Since the date of the above
Report of Mr. G. M. Dawson, ex-
plorations have been made
on right of search No 108 and
an important bed of Hematite
has been discovered. The
vein of Simonite on No
105 has been traced and
exposed at one point.
Additional openings have
been made on mining area
No 5 more fully ascertain-
ing the extent and direction
of the vein of Simonite.
Explorations have also
been continued on the
other rights of search

but up to this time
without any positive
results as to further
extensions of the de-
pôts referred to in the Report

Feb 3. 1874
