

Princeton Nov. 26. 1874

Dr. J. W. Dawson

Dear Sir. We shall expect
you at the time named in your
note: as Dec. 28^o is the last day
of our term it will just barely
allow you time to complete the
series with us. I hope you may
not find a daily lecture in
each of the two places with the
journey to and fro beyond
your strength; though it must
impose a fatigue upon you

ce rehearsal and facilities for self-performing your work.
how I ate perhaps the latter will be

Very truly yours
W. Henry Green

which I greatly regret. Dr. Hodge
hoped to have had you as his
guest when in Princeton: he
will doubtless claim at least
the privilege of entertaining you
in part. Mrs. Green and myself
had also looked forward to the
pleasure of having you stay
with us, which we only forego
from the superior claim of Dr.
McCosh & Dr. Hodge based a prior
acquaintance. We shall have

Prof Green
