

348 St Ant: St
21st Dec 175

Dear Dr Dawson

I am not well
enough to venture out today
but I think you may
settle the natural history
business with Mr Bydger if
he agrees in the view you
expressed the other day -
It seems but just that
the land should be given
for its value at the time of
the arrangement with the
Society - but I do think the
University can afford to
make

make any further expressions
— I hope we shall
soon get a copy of the
Education Bill as amended

Yours truly
W D Bay
