

GEOLOGICAL SURVEY OF CANADA

(Museum and Office, 76 St. Gabriel Street) MONTREAL.

30 December, 1875

My dear Dr. Dawson

I will send you a copy of
Tennors report, I hope in a few days.
It will, however, be some time before the
map will be ready

I have been looking at Sir W. E. Logan's
Cabinet of Eozoon this morning. Quite
agree in what you write respecting the ^{ultimate}
disposal of it and shall write Mr
Cpwer asking her to get the consent of
the heirs to the arrangement. In the
mean time could it not be used in
the making of a thoroughly good representation
of the

Claims of Zoocom, at the Phil. Exhibition
If you think so and would kindly
superintend the arranging and perfecting
the collection Mr. Weston would give
any aid you require

Yours sincerely

Wm. R. Briggs.

Principal Dawson LL.D. F.R.S.
