My dear Sir,

I have to thank
you for your note of the 6th
and also for the paper
of your son on the Forest
Invasion - The letter I
have read with great interest

I will take an
early opportunity of speaking

to Mr Mackenzie about
the Military College
matter which you
allude to but I doubt
if I will be able to
influence him - much
unless you will allow
me to read him your
letter which I will do
unless I hear from you a gain
to the contrary

I am much pleased
to learn that Mr Mackenzie
is pleased with my

In view.

When

you
