

Wm Evans  
497 St Urbain St.

Montreal. August 19<sup>th</sup>.  
1893.

Sir Wm. Dawson:

Dear Sir —

If there is any delineating  
to be done in the autumn  
in connection with your  
work will you allow me to  
undertake it? I have been  
practicing in pen and ink  
since I drew the N.W. fossil  
and know better how to  
go about it. I saw in

a paper some time ago  
that you intended descri-  
bing new fossils etc in  
the Museum; and knowing  
that it was just-possible  
you might require to have  
some of them drawn I  
thought I had better let  
you know I should be very  
glad of any employment in  
that-line. Please do not  
trouble to answer this until  
you return. I <sup>hope to</sup> have  
a studio in Town all winter.

Yours very sincerely  
Blanche B. Evans
