

Montreal.

Oct. 4/93.

Dear Sir William Dawson.

I enclose
You a letter of introduction
addressed to you from
Mr John Murray of
Edinburgh, Scotland.

I send it to you as I
am not aware as to
what your engagements
may be and at what
time you may be at.

leisure. My object
in seeking an intro-
duction is to get your
views as to the possibilities
of my taking up a life
of study, exploration
and research in Canada.

I have for eight years
past devoted my life
to Banking and my
progress has been very
satisfactory but I prefer
a life of study to the
dull routine of office
work.

I am 24 years of
age, have had no
college education but

if not too late to start
I have good capacity
for work. and my
experience in the Bank
has had a "settling"
tendency.

I have no means
which will I suppose
make my task doubly
difficult.

I should be very
glad indeed if you
would give me your
advice.

Respectfully Yours

J
