REF. 223

October 17

Dear Mr William Dawson

I have to convey the
 special thanks of the
 Council for your very
 valuable work which
 arrived on Saturday the
 14th. I hope all will
 value it as much as
 I do. -

When I recovered from
 my illness since 1890 and 1891

during which time I
had the help of one of
the Council. - you asked
a question as to what
works of yours were in
the library. I find we have
Academi Geology
Archaeo
Chain of life
Excursion Canadense
Fossil Men
Modern ideas of Evolution
Modern Science in Bible Lands
Nature and the Bible
Origin of the World
Salient points in the Science of the Bible

You will be pleased to
hear that Professor Fritz
Hammel has joined.
he seems very unlike
some German Professors
in his view of the Bible.

The question of new papers
is a troublesome one - It is so
difficult to fix on subjects
at once useful, and
demanded by ^{errors in} the current
of modern thought, and
every hint is a help

Permit me to thank you
so much for your kind
welcome to my niece who
has married Mr. Carr Wilson,
I have often hoped that
your tour to the West had quite
restored your strength, and
was glad to think that the
appearance of your volume
indicated this was so.

My wife and I desire our
best regards to Lady Dawson
and yourself. And if I can
be of any service in England
at any time I shall be so glad
to oblige you most humbly
In Affectionate Service
J. F. F. F. F.
