

Cambridge
May 9/94

Dear Sir William

In accordance with my promise
I send you a list of Canadian paleogeic
insects, arachnids & myriapods so far published.

I have found it convenient to refer to
my Index of Fossil Insects (Bull 71 U.S.G.S.) for
closer reference to places where they are
described or figured or both, as I find
I sent you a copy of that work. If
you did not receive it (some copies went
astray) I shall be glad to send you
another.

Yours very sincerely

Wm. H. Fendler
