

Sydney C.B. Feb 1st
Dear Sir

I enclose a post card
new to you which is of
interest as establishing
the position of the Norway
Lands in its extreme East
ern extension. It will be
noticed that it is a con-
siderable distance inside
of its position as heretofore
assumed.

I will endeavor to get from

It appears a collection of
the accompanying prints and
further prints as they are
wanted.

I am now in
very full of you

CANADA POST CARD

THE ADDRESS ONLY TO BE WRITTEN ON THIS SIDE.

To

Albert L. Hill Esq., C. C.

Sydney C. B.

Schr. Pond 31st January 1876

Dear Sir

We have been successful
in getting the Torway Coal. But it
was a tough job. The Metals is all
standing at an angle of 1' in 2 1/2
or perhaps a little more. Which brings
it very much nearer the Ross than was
supposed. The distance being 28 Chains
S 25 W from the slope. It will be
a good workable seam. I would
like to ^{know} ^{what} you are doing or what the prospect

A. J. Hill. C. E. (C. B.)

Your truly

A. J. Hill
