

Archaeopteryx suspiciens

Often found very variable

but distinct from *Saurop* & *Spina* ~~like~~ ^{structurally} ~~plaplets~~ ^{& more} ~~large~~ ^{layers} ~~at base~~

was for the middle of the period and by the 2nd
level pelvicolle which does to the flat scales
a variety in 5 birds — by way of a *Reptile*
of *Rept* in *unusually* *some* *species* — but
less still of that being *Rept* *of* *small* *and* *not* *just* *young*
