19 May 1879

My Dear Sir

I thank you very much for the trouble you have taken about those fossil plants which I sent. They were very fragmentary and for the most part badly preserved, and I was well aware that the only chance of making anything of them was by your kindly looking at them in connexion with your own knowledge

time in returning the box of specimens I trust you will do it in whatever may best suits your own convenience & will give you the best trouble.

Please accept my heart thanks and believe me

My Dear Sir

Yours faithfully

Thomas Brown
