

March 31st. 1836.

Dear Sir

The final corrections of the pamphlet have been made and I await only your approval of the Preface to go to press. This approval has already been obtained from Profs. Hall, Newberry, Hitchcock, Cope, Lesley, Dr. Hunt, and (with an explanatory letter) Major Powell. In order that the issue may not be longer delayed, and at the same time the address to American Geologist may receive the support of the entire committee. I beg that you will telegraph me if you approve, the enclosed.

Very Respectfully

Persifer Frazer

201 South 5th St. Phila.

I regret to add that the demand for the pamphlet is so far very small.
