

McLellan
July 1/76

To the

Pres of McGill College
Montreal.

Dear Sir, - Having in view the
study of Civil Engineering, I
trust you will pardon the
trouble of informing me what
time it would take to study
such, and what it would
cost financially. I have a
good knowledge of Mathematics
&c, and would attend McGill Col.
next winter, if, on information, I
felt that I was able to overcome
the difficulties attending it,
financially and otherwise.
Trusting you may deem

proper to inform and I
remain

Yours truly

D. R. Maclellan
