Little Notes
May 4/86

My dear son,

I have now
finished the revision of
Alb. Graham including the
entire re-writing of the
introduction & concluding
parts, and can have
it ready for the printer
at any time. The
question is do you
care to have any-
thing to do with it
either for yourself or
jointly with some
American publisher

I propose to give to
a new name, and as
I think I mentioned to
you have thought of
The Mystery of Origins
and its
Solutions in Revelation
and Science.

I know the time is so
bad on for books
but I have thought it
best to give a little
time to this matter while
I had it.

When in Newbern
I asked the young man

in charge of the Book & club
to send me Haeckel's History
of Life to this place by
mail when it came
it. I want it to prepare
a little appendix to
my text = book of Zoology.
If he has got it in please
ask him to forward it

Truly yours

J. Dawson
