

Copy to Selwyn

McGill College,  
Montreal.

Sept 14/76

said that I recommended  
Whiteaves as Palaeontologist,  
It would be more  
correct to say that  
I acknowledged certain  
qualifications  
~~claims~~ of his, while  
recommending Athers.  
At least this was  
my intention, and it  
appears in copy of my letter to you,  
which you may please  
re-read.

J. Dawson

McC Selwyn { NY  
22 }

My dear Sir,

I send herewith  
a box containing fossil plants  
from Cumberland & Cape  
Breton; also a parcel of  
fossil plants from C. Breton  
and a specimen of Stromatolites  
topora, being all the  
specimens belonging to  
the survey in my possession  
as far as I  
know, except a few  
slides of Sir William's

\* loaned to me by Mr. Selwyn, who  
thought it interesting in connection  
with Eozoon, as it certainly is.

Luster Township rocks,  
of which the Weston  
has a memorandum.  
I enclose list of the  
fruit plants, as far  
as I had some with  
them up to my leaving  
home in July.

Please also to find  
enclosed list of the  
specimens I had in  
Mr Phillips' hands  
at the time of his  
death. If any of

them can be recovered  
I shall be glad, as they  
are important to the  
completeness of my col-  
lection.

I have asked Mr  
Whitman to call a  
meeting of the Com.  
Committee on Curatorship,  
for Sat. at 4, and  
hope you will be able  
to come.

I was told incidentally  
yesterday that you had
