

Croton Landing, N. Y.
Oct. 21st 1876

Principal Dawson,

Dear Sir,

I hope during your
summer vacation you found
time to examine my book
"The Mos. Act. of Creation, The
Miracle of To-day," and I should
be glad to have your opinion
of it.

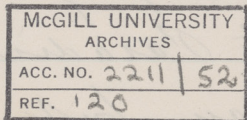

I enclose you an article
wh. appeared in the N. Y. Tribune
3 or 4 days before Huxley's first
lecture. Whether it had any
thing to do with his remarkable
change of base from Genesis
to Paradise Lost I cannot
say, but that he saw it, I

have no doubt for the Tribune
has been his special paper
since he landed, while the
lecture bears internal
evidence that something has
shaken his belief in reality
of such a creation being found
in the Bible.

Very respectfully,

Yours

C. B. Waring
