

Wm
Miles

Quebec 8th Nov 1876

Principal Dawson, L. J. F. R. S.

My dear Sir,

I duly received your telegram yesterday, and your letter with enclosures to-day. On receipt of the former I went at once to the Education Office, but G^r Miles was not there, and I could do nothing more than leave your telegram for him.

I was equally disappointed on going to the Education Office to-day, for I neither saw G^r Miles, nor could I

find anyone, who could tell
me anything about him.

I then called on
M^r Irvine & saw him for a
few minutes. He promised
to see M^r Quimet, and have
the mistake rectified as far
as possible.

I am very sorry
that there has been so much
blundering, though such is
likely to be the case at first with
a secretary not conversant as
yet with the details of his office,
and without place or position
in the Department.

I trust that with
time & patience I may be
able to have things more
correctly & promptly executed.
I regret that you have had

so much trouble & annoyance
with this matter.

Yours very sincerely
George Meir
