My dear Dr. Dawson-

Mr Meyrick, "Christian"
name is James. I shall
forward your letter to him
today. I think I told you
that it was only at my suggestion
and request that he consented
to allow the extracts from his
letters to be published - as they

were written simply as a
"science gossip" in private letters,
and he requested particularly
that if published they should
appear as unimportant as possible.

I am exceedingly glad to
learn that your daughter is so
happily married - I heartily
congratulate Dr. Harrington.

My kindest regards to Mrs
Dawson & yourself.

Yours truly
Giff. Evans
