Wendro 19th Feb-77

Dear Dr Dutton,

I send you part,
my promised paper. I think
the portion sent will be
abundantly long enough for
the evening, and as it treats
of an independent subject
it will bear well separation.

I shall send the conclusion
which will make a second
paper in a few weeks -
provided you want it -

I should be glad to know
when the paper is likely to be
published in the Geologist -
and if I can get a proof -

When will the next thing
be folded in out - ?

Very truly yours
Henry G. Reid

Principal Dawson L.R.S.
