

Rockester Feb. 26. 1877

Prof G. W. Dawson

McGill University  
Montreal

Dear Sir,

Your favor of the 16. inst, was received, and the casts there in ordered, so far as we could furnish them, were packed and shipped without delay, Enclosed please find shipping receipt and Bill.

A number of Marsh's new species will probably be added to our cast series in long, but as yet we have none of them, neither have we the skulls for the French cover.

And I am sorry to say that almost the only fossils from the Chemung which we have in duplicates are the *Dictyo* phytoms.

I think that Prof. Word will be glad to obtain a cast of your fine *Apholopsis*,

Have heard nothing yet in relation to the

Acadian geology, but if you have all the  
data in the matter, you had better deduct  
the amount owing you by Prof. Ward for the  
same, from the present Bill, and I will  
explain it to Prof. Ward on his return in April.  
Please make <sup>draft for</sup> below a bill payable to L. A.  
Ward,

Very Respectfully yours  
Edwin A. Howell  
for Henry A. Ward
