M. Dawson Esq: LL.D. & F.R.S.

Principal of McGill College,

My dear Sir,

In a note which I had from M^r Hercker lately, he says, "Is there any way of getting M^r Embers's little work on the Art of Teaching put in the list authorised by our Committee without the sanction of the Committee first formally obtained? I think the Book a decided improvement on those already published, and am willing

to share the responsibility
on the ground of public utility.

If Dr. Dawson would consent,
I think the Committee would
sanction it at their first
meeting."

Can this be done, & if so, how?

As soon as you fix on the
day for the next meeting of
our Committee, please let me
know, as I would require
to send out the notices at least
a week before hand.

Yours very sincerely

George Weir
Secy P.C. of the C. of P. S.
