

Morgantown W. Va.
April 23^d 1877.

Principal Mr. Dawson,
Dear Sir,

I am much obliged for
your letter, and for the papers sent. Thank
you also for the offer to send copies of your
Devonian & Lower Carboniferous Flora,
I have these works already,

Our Coals here affords very little
in the way of fragments showing structure,
I shall bear in mind your request
and will look for such material,

Yours truly

Wm. H. Foutaine
