

EDWARD M. COLIE,

LAW OFFICE,

810 BROAD STREET,

NEWARK, N. J.

Edw Colie  
May 2, 1877.

Principal Dawson.

W. Sir:

Sometime since you kindly furnished with two small pieces of *Cozom*, which did very nicely for microscopic purposes, but I have now another favor to ask of you.

I desire to obtain, before in a lecture to be delivered the latter part of this month, a specimen of Lawrence's limestone, containing *Cozom*, and after serving this purpose to be placed in my cabinet, and used at the Ashland Academy of Orange, of which I was recently Vice-Princi-

pal, and at which I still occasionally  
lecture. If you can obtain such  
a specimen for me, as doubtless you  
can, I will gladly repay you pe-  
cuniarily if I can do so, and will be  
under great obligations to you per-  
sonally.

In your last you referred me to  
your new book entitled "Dance of Life".  
Chas. Harpers. I succeeded in getting  
the English Ed. but was informed by  
the Harpers that they did not publish  
it. Is there any American Edition?

With many thanks for your  
favours in the past.

Respectfully,

Ed. M. Colie
