

College authorities have entered
cordially into the movement. The
Presbytery have obtained a Charter,
but have not yet taken institution
in operation. You will observe
in sections 21 & 22, how we
have attempted to get over the
difficulty of theological degrees,
which I see is troubling you -

My stay here is drawing
drawing to a close, but I rejoice
that I come go my health has
been greatly improved & I have been
of some use to Canada.

I enclose you a part of
a specimen, one of my French
Italy breeds, friends gave one of us
I promised to ascertain what it
was

Fort Garry

24. July 77

My dear Dr. Dawson

I send you a
copy of the Statute of Manitoba,
as I think that you will be
interested, in the act creating
a Provincial University. The
regulation of graduates has
been held & about 50 have
registered. The Presbytery, the
Church of England & Roman
Catholic

if it had any economic value,
I send it to you & will be
much obliged if you will let
me know soon. I think it is
calc spar, or an undivided
mass. I have in I believe a
large deposit of it -

With kind remembrance
to Mrs Dawson I am

Yours faithfully

A Morris

Principal Dawson

Mc Gill College

Montreal

The specimen is from the surface &
since I split it, looks more like
mass -

Morris
