

The Numismatic and Antiquarian Society  
of Montreal

ORGANISED 1862. INCORPORATED 1870. 33.VIC.CHAP.53.

Montreal 4 June 1877.

Dear Sir,

I have been requested by the Executive Committee, in connection with the Centennial Celebration, to tender you their sincere thanks, as well as, through you, to the Board of Governors of the McGill University, and the Council of the Natural History Society, for the very liberal offers they have received from them, of the use of the "Dr. Paulsen Hall", and the "Natural History Society's Building" both of which, they regret to say, are found to be too small, for the due display of the works promised them, the Exhibition having outgrown the limits, into which, it was at first, confined.

I am also desirous to mention to you, that the Committee have selected, and decided upon, the Mechanics Hall, in which they will hold the Celebration, and presuming that this change of location, will not interfere with your promised introductory remarks, on the opening night, they would esteem it, a favor, if you would couple your remarks, with a short sketch of the life & times of Dr. Casstow.

Trusting we are not taxing you leisure too much, by copying this additional favor

J. W. Pearson Esq. LL.D.  
McGill University

Yours truly  
Gerald E. Hart  
Hon Secy
