

Montreal August 9<sup>th</sup> 1879.

Dear Sir.

The beetle inclosed in your letter is the six spot Tiger Beetle Eicindela sexgutta, Fabr. common in Canada & northern United States. There was a shell inclosed with it but it was utterly smashed by the energy of the Post Office people and the beetle was nearly as bad.

Yours faithfully  
F. B. Caulfield.

Dr. J. W. Dawson.
