

Princeton N.J.

Nov. 26. 1877

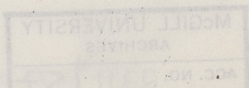

Dr. J. W. Dawson

Dear Sir,

Your card received today. I shall be glad to receive your notes on the earthquake of 4<sup>th</sup> inst. In regard to the direction I had reports as follows.

~~Princeton N.J.~~  
Montreal. (E. to W.) (NW to SE)  
Springfield, toward (S.W.) (as if N.E. comes ~~was raised~~)  
Ogdensburg. (W to E)  
Hartford. (W to E)  
St. Johns 2<sup>d</sup>. (W to E)  
Windsor Ct. (East and west)  
Aylmer Ont. (from NW)  
Three Rivers (to S.E.)  
Lamark Ont. (W. to E.)  
Lyonsburg (from W.)  
Crosby Mills (NW to S.E.)  
Hamover N.H. (N to S)

These are pretty nearly unanimous

Published by Government,  
similar to the War Dept.  
maps of U.S.? If so where  
can it be obtained & at  
what cost?

With thanks for kindness  
received I remain

Yours truly  
C. J. Rockwood Jr.

MCGILL UNIVERSITY ARCHIVES	
ACC. NO. 2211	57
REF. 57	

I concluded that so much agreement implied some pretty distinct indications; for I know by experience it is no easy matter to tell the direction of a vibration from feeling it. Of course I have nothing to judge from except the balance of testimony. -

The Hannover observation was in a letter from Prof. Zimby, & expressed the agreement of several <sup>several</sup> persons in different rooms (in two houses) & with beds standing different ways. It is a little puzzling -

By the way where are <sup>15 miles south of</sup> ~~Lynnhurst~~ <sup>Leeds</sup> & Crosby Mills? I can't find them in any map or Gazetteer to which I have access. - Is there any detailed map of Canada
