

Copy to Albany
Dec 77

Dear Sir,

I hereby enclose a form
of application with reference to
an ~~object~~ ^{object} in which I am much
interested and from which I am
hopeful ~~some~~ valuable scientific
results may be obtained. There
are certain beds in the Connecticut
Coast field which are trees containing
remains of reptiles & the land
animals which have already
afforded good results to the
Lyle party. ^{particularly within the last}
year ~~at my~~ ^{on} ~~the~~ ^{years}
before day we see the trees
but when we could be done
with a little additional expenditure
and there is doubtless
material etc.

There is a large
number of trees in the
of about 15-20 feet high
and would be

Cape with the up to him
The man perhaps seemed
After, one after in the leaf
a like & after that time
as the cliff falls.

That all by the way
I think of the way
and could creep away
I was not of the nature of
of Palmer such as you
the to be in the
pups of

The birds were of the
of the year of the
5- wings & 2 small shells
and those for the
show of the
could be made.

1 Acacia

Extracts of elasticity are of ~~the~~
best trees in the cone ground
of Abotia with the view of
obtaining specimens of laminated
Ammonites there

2 Acacia £ 75.
