JAY TERRELL, Proprietor.

Lake Breeze, O. Jan 15/878

Prof J W Dawson

Dear Sir

I assume the liberty of sending to you the Photograph of a jaw bone of a new fish which I discovered here in the Huron Shale. The teeth in the end of the jaw are different from any thing I have seen. I have some other fragments of the same thing I have now been at work on these Shales ten years but had found nothing before until last year like it. Nearly all the large bones that I find in the Huron Shale are *Sinichthys Terrelli* though I have found others and also some small fishes and some chambered shells. Hoping the Photo will please you

I am

Very truly yours

Jay Terrell
