Dr. J. W. Dawson:

My dear Sir,

At the
instance of Professor Le Conte,
I send you a copy of his new-
ly published geology. I be-
lieve it to be a very meritorious
work and being anxious to pro-
mote its success, as well in
behalf of the author, as on ac-
count of the book itself, I should
be very glad if you would kind-
ly examine it, and if so in-
clined, let me know what you
think of it.

Very truly yours,

E. S. Gannett
