

pany me. Do you go alone?
Hoping news from you before
my departure, and with best
regards to Mrs. Lesley & your
family, I remain, my
dear Lesley,

Always truly yours

J. Steyerhaek

Prof. J. P. Lesley.

Montreal June 25. 1878

My dear Lesley

I have been here
for more than two weeks, and shall
sail from Quebec for Liverpool on
July 6. Your departure is, I believe,
fixed for July 25. I hope to beat
the Brit. Assoc. at Dublin on
the 14th August - will you not be
there? Of course you come to Paris
where is your address in London?
You can see of me at the Museum
in Derry Street. I am told
by the State Printer that the
Part 1. of my Report will be

ready by July 15. I want to get
 some 20 or 30 copies (unbound)
 for distribution at Dublin
 at the geol. Congres. Could you
 conveniently bring them over
 for me? If not I will have
 them sent by Sebeok to London.
 Several geologists, notably
 Bradley, Little, Shaler & Dana
 are waiting for early copies
 which I shall instruct the Socy
 to forward at once by mail on
 my account - from Harrisburg -

Will not the geol. Commission
 allow me 100 copies of the
 Report? I am not ^{like} the
 others a paid officer, & have
 spent more than the little

sum of \$500 x given me, in
 travelling & other expenses to make
 the work complete and a
 credit to the survey & my
 self. I should therefore like
 to be able to get copies to dis-
 tribute free of cost - Kindly
 consider this matter.

I am sorry to tell you that
 my wife had a miscarriage
 at the end of three months, but
 she is now all right again &
 hopes to forward our dearest
 wishes by remaining
 quiet in Canada this
 summer. My two sis-
 ters will however accom-
