Dr J. W. Dawson  
McGill College, Canada.

Dear Sir: I have the pleasure of stating to you that on either the first of October or Nov. will be issued the first number of The American Quarterly Microscopical Journal. This will contain the Transactions of the N. Y. Microscopical Society and much valuable matter. It is intended that this journal shall occupy an honorable place in scientific literature and as editor I am now endeavoring to secure the best men in the country as contributors, and I believe very successfully. I write to ask if you will contribute such articles as you may deem proper and also if you will allow the use of your name in the prospectus soon to be issued as a contributor. I shall esteem it a great favor if you do, and you may feel sure you will find it in good company.

Very respectfully yours

R. Hitchcock  
Rec. Sec. N. Y. Mic. Soc.
