My Dear Dr. Dawson

You are very kind
& generous, sending me
- or causing to be sent to
me - the 2 vols. of
Reports and the Street
Acadian Garden. I am
truly obliged, and I see
already that they are
helpful. If I had
had your Paris Capital
discussion of Prairie -
woodlessness before I
gave my lecture I
should have greatly fortifi-
fied my conclusions by
this - and if the Street
was not printed off in
our Jour. Science, I should
have referred to it by a
note. -

I am busy with other work,
but I must now revise
the 2^d part of my lecture
and send to Prof. Dana
at once. It can only
touch & go on some
points — I want to bring
out.

So Great Britain is
going to take charge
of the greater part of
what Turkish Empire is
left. I am very glad
of it, for the world's
sake, & for righteous-
ness' sake. But it
is a heavy business —
yet it can be done

Mrs. Gray sends
best regards to you &
your daughters — & mine
give also. We enjoyed
your visit, much — &
you have made

R Gray
