July 17, 78.

Dear Doctor Brown.

I have been asked
confidentially as to the scientific qualifi-
cations of the present Superintendent of
Government Mines in Nova Scotia, of
whose name I am ignorant.

The inquiry is for the benefit
of the Department of Government, which re-
quest, if he is not highly educated, to offer
me a position similar to that which
I now hold.

I beg you your kind in-
formation on this subject, to be treated in
strict confidence between us!

Sincerely Yours,

Professor W. Brown
