The Mine. E. Templeton  
July 27<sup>th</sup> 1878.

Dear Dr. Dawson

Pray accept my  
best thanks for yr kindness  
in sending me yr "Acadian  
Geology" which I shall prize  
none the less as coming  
from its gifted author.

It was not until the  
second day that I received  
yr fresh Telm. regarding the  
boxes

notes, and late yesterday night  
of Thursday. I have written  
Mr. Gouin the agent at Hull  
to trace them up, all we know  
here is they went forward.  
there is no agent or employe  
to enquire of. This utter  
absence of definite information  
prevented me from replying.

I hope they are safely  
with you in this.

I trust also you have  
quite shaken off the effects  
of your very fatiguing and

uncomfortable wish, and  
I will try when you come  
again, as I venture to hope  
you <sup>will</sup>, to give you better and  
pleasant accommodations

Again thanking you for  
your handsome souvenirs  
to believe me,

Yours sincerely  
G. M. G. Miller

I will try where you come  
 again, as I venture to hope  
 your <sup>kind</sup> desire for better and  
 reasonable accommodations  
 gives hearty support  
 your best wishes concerning  
 success to  
 Yours truly
