

5 Craven St. Strand.

London. Aug. 28/78

My dear Sir William

I am sure that Mr
J. D. Collins needs no introduction to you
who are familiar with his important con-
tributions to geology & mineralogy. His wide
acquaintance with mining interests alike
in Cornwall, Spain, India & N. America
give importance to his proposed tour in
British Columbia, and I only hope you
will be in Montreal when he passes on
his way west.

With best regards to remain. Dear Sir
William

Very faithfully yours

J. Henry Munt

Sir William Dawson

Aunt

Stover St. Abroad

London - Dec. 28/78

My dear Mr. William

I am sure that you

of Mr. Galton was an introduction to you

who are familiar with his important

contributions to Geology & Mineralogy. His work

is everywhere but among scientific circles

in Council. I have Mr. Anderson

your introduction to his proposed tour in

British Columbia and I will take you

will be in the field when he comes on

his way west.

With best regards from

William

Very faithfully yours

J. Henry Wood
