

New Glasgow, N.J.
15th Feb 1878

Dear Dr Dawson

You expressed a desire on one occasion when I was in your company to obtain a Moqui skull I have one that I could forward, which I believe to be genuine. It is at all events pretty old. Would you deem it worth paying express charges.

I send you photographs of Indian implements.

I lately visited the place in Lunenburg county known as the seat of an arrow makers operations I have written a short account of it for the Smithsonian. Perhaps I could send a copy for the *lean Naturalist*.

Could you favour me with a copy of Hedges work containing his observations on the bowdang

Survey. I am willing to pay the price
I expect to leave for Scotland in
a fortnight

With kind regards to Mr Dawson
and family)

I remain

Sincerely Yours
George Patterson
