

Danville Dec. Oct 16 1878.  
Prof J. W. Dawson.  
Montreal.

My Dear Sir,

Upon my return  
I find yours of Sept 18. with box  
of fossils. for which you will please  
accept my heartiest thanks.  
They are quite satisfactory.  
Many are familiar as I  
received several Canada & Nova  
Scotia spms from the late Prof Hatcher.  
whose name appears on some of your  
labels. I studied geology with  
him at Cornell University previous  
to his departure to Brazil.  
Will you have the kindness to  
write a label for *Puzosia* <sup>Dawson</sup>  
with author's name & locality on it.

... of ...  
... that ...  
... of ...  
... of ...

... of ...  
... of ...  
... of ...  
... of ...

... of ...  
... of ...  
... of ...  
... of ...

I would deem your label this  
writter of considerable value. when  
I consider that you described it.  
Whenever I get anything which  
I think may be of interest to  
you I will surely remember you  
Very sincerely yours,  
Wm Gurley

P.S I sent you a copy of  
my paper on Wetypa did  
you receive it? W.G.
