Hunt Jan 3 79

33 Durocher Street.

Montreal Jan 3. 1879

Dear Lesley. best wishes for the New Year
to you and yours. I have now been
back nearly two months, and have
worked over a mass of scientific litera-
ture. My wife too is not well needs
all my care when needed it. She is bet-
ter now and goes west next week for a
little while. I have considerable matter
nearly ready for the Part II of my re-
port. My papers for the Congress are
revised and the Monographs notes of
discussion also. The Secretary in a letter
dated Decr. 13. complains that neither
you nor Prof. Lope has responded to his

demand for copies of their communications
and beg me to write you both urging a
speedy action that the volume be not retard-
ed. I not feeling sure of Cope's address.
(I believe it is 2100 Pine St.) include the note
for him. You will please write the Secy.
Alexis Delaire. 135 Boul. St. Germain. Paris.
You will be pleased to learn that Ferd.
Römer for Germany & J. M. Hughes for
Great Britain have accepted their mission
to form local Committees for 1881.
Hughes is full of zeal. I spent three days
with him in October & gave two lectures
at Cambridge. I hope to see you in
Philadelphia, but perhaps not before the
middle of February. With best regards
to Mrs. Lesley, and your daughters I
am my dear Lesley
always yours
J. Sterling Hunt

Prof. J. V. Lesley
