

Washington, D. C. Jan'y 5. 1879.  
Prof. J. W. Dawson.

Dear Sir.

By this mail I send  
to you a small pamphlet on the Weather.  
I am prompted to do this by seeing your  
article on the "Rights & duties of Science"  
that appeared in the Nov. number of the  
Princeton Rev. that was sent to me by a  
friend - I would here state that I did  
not claim the article as "new" - though I  
knew it to be such. I simply headed it "a  
view" &c. The publisher - himself a weather  
man, perjured the word "New". Still I am  
now very glad that he did so, even though  
it was done without my knowledge -  
Hope you will receive the same.

Very respectfully yours  
Isaac P. Hoyer

Washington, D.C. Jan 2, 1917.  
Prof. G. W. Benson.

Dear Sir,

Meyer  
Jan 11/17

*[Faint, mostly illegible handwritten text, likely bleed-through from the reverse side of the page.]*

Very Respectfully,  
George Meyer
