

Hfa. 3 Feb. 79.

My dear Sir,

The matter to which you refer was brought up at a meeting of Council of the Institute on Saturday, and remitted to the Publication Committee, with myself added to the number, for a Report, which will be considered by the Council on Wednesday.

I had not seen Dr. Huxley's paper, but have got my copy since you wrote. I will write you at length

in course of a few days.
You may depend upon
the Council doing what
is right. Personally,
I regret very much
that you have suffered
annoyance.

With kind regards
I am
My dear Sir

Yours truly
George Dawson
