Pictou 17th June 1879

My Dear Sir

I beg to thank you for yours of 13th Inst: in answer to the enquiries about the occurrence of Albertite at W. Branch River John. We are not sanguine about finding any valuable deposit but if we attempt a search shall follow your valued suggestions.

We are all sorry to learn that your chances of visiting Pictou this summer are small but hope that you may yet find your way down.

Everything ^{here} is very dull and quiet. We hear a rumour that the real reason why the Blast Furnace at Londonderry was

Peter of June 1877

My dear Sir

I beg to thank you
 for yours of 18. That we are
 to the experience about the
 course of Utilities at the
 New York. We are not
 general about finding and
 suitable deposit but if we
 attempt a search of all
 your other suggestions.
 We are all sorry to
 learn that your chance of
 visiting Peter this summer
 are small but hope that you
 may get five years and down
 everything is very dull and
 quiet. We have a general
 the real reason why the
 Bureau of Land and Survey

blame out was that it was wrong
out but we cannot verify for
the truth of this. The objection
being made that up to last to
most kind done out the British
Gives. we are sorry that prospects
affairment look so dark. There
not even Mr. B. (British person)
time to not know what he may
be doing with his Committee.
I was glad to hear that
Mr. B. had given his former friends
party for the Peace Club - they
will be interested in each other
Cooperation.

With kind regards to you
all I remain
Very truly yours

blown out was that it was wrong
out but we cannot vouch for
the truth of this. We hope some
thing may turn up to lead to
work being done on the E. River
Areas - we are sorry that prospects
at present look so dark. I have
not seen McDonald, (Smith) for some
time & do not know what he may
be doing with his Timonite.

I was glad to hear that
Rev. D. McJordon had joined George's
party for the Peace River - They
will find pleasure in each others
companionship.

With kind regards to you
all I remain

Very truly Yours

J. P. Ross
