July 2<sup>nd</sup> 1848

Sir, I beg to enclose a  
respectful of a work just  
published by my sister  
Miss Jackson, of Chester England  
she has for many years made  
a study of "Philology" and  
her researches have been  
acknowledged in a  
most complimentary manner

& the "Literary Society"  
of London, and of many  
of the eminently learned  
Men of England and  
Ireland who speak in  
no measured terms of  
the ability displayed  
in her work. You think  
she has received undisturbed  
Notice from France, Germany,  
and the States. You have  
evidently seen to her & the  
Plan of Virginius, and  
should not feel disposed

To take a Copy or Copies, I  
shall have much pleasure  
in forwarding you ~~the~~  
to England, when the book  
is of immediate business.

I remain Sir,

Yours &c

J. Dunstun

sent things as they really were."

Elsewhere we give an article from the *Antigonish Casket* on the famous Lochaber copper mine dispute. We are not versed in the history of the imbroglio, but agree with our contemporary as to the folly of either party resorting to brute force to gain its end. They occasionally settle disputes of that nature in Nevada by musket, pistol and club, but we believe a higher state of civilization prevails in Nova Scotia. We respectfully submit that the Government should appoint an impartial Commission to sift the matter to the bottom and present an advisory report to the Government, so that the latter may place one or other of the companies in legal possession and allow it to proceed with the development of the promising source of profit and employment in question, without fear of molestation. If necessary, the Legislature, before rising, might authorize the Governor-in-Council to finally decide the matter immediately after receiving the report of the Commission. Not being conversant with the details of the dispute, as

we have intimated, we do not know what justice there may be in the special offer to the readers of this paper for the trouble

The name of the Rev. gentleman as a lecturer preceded him and the consequence was, that the hall, in which the meeting was held, was filled to its utmost capacity by a very respectable and attentive audience. The subject of the lecture was, "Joseph, a Jewish Prince Minister of the Olden Time," which was dealt with in a manner highly entertaining as well as instructive the lecturer following Joseph through the years of his life from childhood to old age, showing in a forcible way the many noble traits in his character and holding him up as a standard for the lives of the present generation. He then exhorted the young, and commended to them the steadfastness of the loyalty of Joseph to the aspirations of his early days that he should become a good and a great man, and strongly advised them never to irreverently deal with the ideas of their youth. In closing, the Rev. gentleman drew the attention of the audience to the fact that, however weighty with trials and afflictions the early life of Christians may be, yet, as was in the case of Joseph of the olden time, they will gain a great and glorious reward in the future. When feeling discouraged, they should dwell on the thought that the Almighty is a sure and liberal paymaster, and that he will reward those who diligently seek him.

D. C. Fraser, Esq., of New Glasgow, will deliver the third lecture in the above course on Tuesday evening, 18th inst. Subject: "Changes in the Laws of Nova Scotia since 1758."
