

Little Metis

July 23, 1899

My Dear,

I beg to thank
you for the kind ac-
knowledgment of my
little pamphlet. ^{and subjects} It is a
source of much grati-
fication to me that
anything I ~~can~~ ^{have been} ~~wrote~~
should meet with
your approval & that
of his son for Father.

W. M. Upton

of our coast fishes
I have usually consulted
the Report of the late
Mr Peckey of New
Brunswick ^{the Report on the Fishes of New Brunswick} which
few however is out
of print and the
Shay Report on the
fishes of New York
The best authority at
present known is
A Theodore full of
Washington and

I think he has brought the
matter up to date
in the Report of the
New York Academy.
This however I shall
ascertain

In general Botany
our best book reference
is Gray's Manual of the
Plants of New England
An excellent book & the
well illustrated is Green's
Herb of New England.
The most correct is Michx.
Rosa's Republic in Florida
delphin. Annot. us

has adapted to this
climate and especially
wrote them I by us
at of M. D. Ann to & appears
to the Report of the Public
Courtment Society of Members
also hope to see the
pleasure of security when
permitted. ^{The members are a number} ^{any work}
As to birds I can think
of the little blue loaves
Hundredth of the ^{Worms}
Bugs.

Write at a distance
for a sleep & other work
for an able pen to be
shut to help I must
it by us for
M.D.
