

Reutlingen Württemberg Deutschland  
d. 1. Septbr 1879.

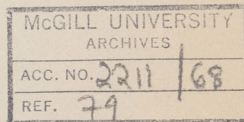

My dear Sir!

I send you hereby my Book "Die Urgesteine  
containing all the discoveries, I made in  
pursuing the veritable nature of the  
crystalline limestone. I wish you may  
be able to agree with them. If it would  
be so, the Eozoon canadense was the guide  
to the verity and we both have the  
sch's faction, we were both wrong.

I am Sir

Yours truly affectionately  
Dr Otto Hahn
