Quebec, 1st October 1879.

J. W. Dawson Esq; L. D.
F. R. S. &c &c
Principal of McGill University.

My dear Sir

I am experiencing
no little difficulty in regard to
the Examination-papers for
Teachers' Diplomas, not a
few of them falling entirely to
my own lot.

Dr Johnson has
kindly for my sake furnished
this time the papers on Arithmetic
and Mathematics. I was
sorry to hear from him that
Dr Cornish has been so seriously
indisposed. I shall cheerfully

Letter of October 1877

Principal of the McGill University
St. R. S. V. St.
St. R. S. V. St.

My dear Sir

I am experiencing
some little difficulties in regard to
the remuneration - paper for
teachers, diploma, and a
few of them falling entirely to
my share etc.

I should for my late professor
the time the paper on curriculum
and the remuneration. I was
very sorry to hear from him that
I should have been so severely
criticized. I shall cheerfully

take the Papers he was to
prepare on myself, and I
wish I could only be helpful
to him in his work - arduous
& irksome enough at the open-
ing of the session when one is well,
but doubly so in sickness.

Might I ask you
to kindly furnish me as early as
you possibly can with a paper
on Scientific Agriculture - time
one hour & marks 100. Please
put the marks after each
question.

I do not know when
^{can} we have a meeting of the R.C. of the
of R.S. The dead-lock seems as far
from solution as ever.

Yours very sincerely
George Her

take the papers he was to
prepare on myself and
I think I could only be helpful
to him in his work - circumstances
will however manage at the open-
ing of the season when our work
will probably be in business.

I don't look for
to think I would be an employer
you probably can with a paper
on Scientific Agriculture - time
we have to work 100. There
but the work after a while
preparation.

I do not know the
the name a meeting of the 10th of the
of it. The book seems as far
from solution as ever.

Yours very sincerely
George W. W.
