

Brunswick House  
Boston 64 October 1879

Dear Mr Dawson

I ought to have written  
to thank you for myself

and Mr Drummond for the

pamphlets and specimens of

Esopus which you so kindly

left for us at the Windsor

Hotel. The truth is we

have been studying or

continuously that letter-writing

has not been a very easy

task. I shall ever pleasantly

and gratefully remember you

kindest to me in Montreal

I hope you will give me  
an early opportunity of  
trying to repay it, by  
crossing the Atlantic &  
seeing your numerous  
scientific friends in the  
Old Country. It would  
be a great pleasure  
to welcome you to  
Edinburgh  
With your present  
Compliments to Mrs  
and Miss Dawson and

Dear

~~To your~~ sons.

Believe me

Your very truly

Wm G. Elliot
