

New York State Museum of Natural History,

Hall

Rock Haven
Albany, Oct. 20th 1879

My dear Dr. Dawson

I received your favor
of the 9th just before leaving home
which was compelled to do for a
little rest for my head. This is the
first day I have allowed myself
to write and to go back to my work
tomorrow.

White now makes an inquiry
Miller in his Catalogue gives
you Orthoceras elegantulum from
Lower Sil. and O. exornatum
from upper Sil. - In Acadian
geol. both are cited from the
Up. Sil. - Please enlighten me -
I hope the matter in type will
be printed by this time.

I will send Museum Report, and
will also give you a memo. of
what I have of the Canadian Naturalist.

Have you, or has any one in
your knowledge for Canada publish-
ed any orthodoxy during the
past two years?

Very truly yours

James Wall
